

# Can paraphrase be a ultimate solution for NLU and NLG?

(or one of the solutions)

Wei Xu

Department of Computer Science and Engineering

**THE OHIO STATE UNIVERSITY**

---

We need a selfie-stick-like solution for the “selfie” problem.

**a.k.a UNK problem in ever evolving human language**

# The Ultimate NLP Quest: Unlimited Text

“Almost any single (relatively complex) meaning can be implemented by an astonishingly high number of synonymous surface expressions.”

**Meaning-Text Linguistic Theory** (Žolkovskij & Mel'čuk, 1965; ~ now)

meaning = invariant of paraphrases

text = 'virtual paraphrasing'

paraphrases = synonymous linguistic expressions

# My take on Unlimited Text

learn and model very-large-scale paraphrases

*selfie*

**word**

*photo*

*gets the boot from*

**phrase**

*has been sacked by*

*Mr Corbyn is actually a  
secret supporter of Brexit.*

**sentence**

*Jeremy Corbyn is a closest  
Brexiteer.*

What's good about **Paraphrases** ?

**fundamentally useful for a wide range of applications**

**e.g. Question Answering**

Who is the CEO stepping down from Boeing?

# What's good about Paraphrases ?

**fundamentally useful for a wide range of applications**

## **e.g. Question Answering**

Who is the CEO stepping down from Boeing?

**match**

*... the forced resignation  
of the CEO of Boeing,  
Harry Stonecipher, for ...*

*... after Boeing Co. Chief  
Executive Harry Stonecipher  
was ousted from ...*
